

PERFORMANCE FREERIDE HYDROFOIL

The MA1500 is suited for heavier weight intermediate to advanced riders and lighter weight entry-level riders making their first runs foiling. The medium aspect ratio and medium tapered planform provide an ideal balance between lift, glide and agility. The well-proportioned surface area creates plenty of lift to get up on the foil in any breeze while offering a generous top end range. The MA1500 is very maneuverable for its size to make tight turns in the flat through to wind chops or waves. Reliable pumping performance will get you through wind lulls or from one swell to another and back again for more.

Features:

- Full Carbon Construction
- Performance Surface Coat
- Titanium Hardware
- Protective Covers
- Exceptional Ozone Factory construction

Range of Use:

- PERFORMANCE FREERIDE HYDROFOIL RANGE
- ACCESSIBLE LIFT, PUMP AND GLIDE PERFORMANCE
- INCREDIBLE LOWER AND UPPER RANGE
- LIGHT WEIGHT ULTRA STRONG FULL CARBON CONSTRUCTION
- PERFORMANCE SURFACE COATING
